

**Oracle Apps TechnoFunctional Course Content:35-40hours**

**Course Outline**

**1. Introduction to ERP**

What is ERP Packages of ERP What is oracle Applications Versions of Oracle Applications System Requirements Job categories and roles Pre-requisites for Oracle Applications Types of Projects in Oracle Applications

**2. Project Life Cycle**

**3. Oracle Applications**

- Types of Modules
- Types of Documents
- Oracle Applications File Architecture
- Oracle Applications DB Architecture
- Standards to be followed
- User Creation Responsibilities

**4. Concurrent Programs**

- Requests
- Define Request Groups Request Sets Reports
- Report Registration Default Types Value Sets
- Oracle Apps Standards in Report registration

**5. MultiOrg**

**6. Flexfields KFF DFF**

**7. Modules (with functional setups)**

- a) PO (Purchase Order)
- b) Functional Setups PO Flow
- c) Requisition RFQ
- d) Quotations PO
- e) Receipts Interview Questions
- f) AP(Account Payables)
- g) Functional Setups Flow in AP Interview Questions
- h) Inventory
- i) Functional Setups
- j) Flow in Inventory
- k) Interview Questions
- l) OM (Order Management)
- m) Functional Setups
- n) OM flow
- o) Interview Questions
- p) AR (Account Receivables)
- q) Functional Setups AR transactions Interview Question
- r) GL (General Ledger)

**8. Procure to Pay Cycle**

**9. Order to Cash Cycle**

**10. 10 Profiles**

**11. SQL \* Loader**

**12. Interfaces**

- Outbound Interface Outbound Interface in SQL Approach Outbound Interface in PLSQL Approach
- Inbound Interface
- Open Interface Table Approach Inbound Interface in API Approach
- PO Interfaces
- AP Interfaces
- GL Interfaces

**13. Conversions**

- PO conversions

**14. Table Registration**

**15. Forms**

- New Form Development Proces Forms Customization Forms Personalization

**16. 16. Real Time Concepts**

- Version Control Toe Instance Strategy Overview of Metalink SQL Tuning

**17. XML Publisher**

**18. Discoverer**
